

a Proving time for the same note-owner claim

24 measured proofs: 8 per anchor. Dots are runs; black ticks mark medians.

b Both block anchors add about 10%; SSZ has no resolved advantage

Points: paired time change. Bars: 95% within-batch intervals (8 pairs).

Apple M5 Max · 11 workers · AC power. One mainnet fixture with a fixed proof shape.

*Hypothetical SSZ summary; both state tries remain Keccak.
